

Reynard

Health Supplies

Surface cleaning and disinfecting range

Convenient and disposable Reynard surface disinfection wipes are a hospital grade disinfectant that provide fast and effective cleansing and disinfection in one go. Fragrance free to be non-tainting, these wipes are ideal for quick and convenient cleaning and disinfection of most hard surfaces and equipment, any time, anywhere.

One step cleaning and disinfection

Hygienic, easy to use, convenient & efficient, Reynard Surface Disinfection wipes will clean and disinfect most hard surfaces and equipment in one easy step. A hospital grade disinfectant, they are safe for use on mattress covers, beds, tables, work tops, trays, trolleys and other hospital equipment.

Fast and effective

Reynard Surface disinfection wipes will kill 99.9% of common germs and have been tested to be effective against a wide range of bacteria. Disposable and soap free.

Cost-effective

Reynard Surface disinfection wipes will clean and disinfect in one go, there is no need for additional products. Reynard wipes eliminates the needs for rags, spray bottles and chemicals, thus saving on laundering, chemical and storage costs. The 100% non tainting, low foaming formula does not need to be rinsed from surfaces and the large wipe size of 33 x 22cm ensures you use less wipes for all applications.

Better for staff

Disposable wipes eliminate the need for staff to measure harmful chemicals and concentrates and removes potentially harmful airborne sprays over patients, staff and food.

Product specifications and availability may vary according to country.

Always read the label and product information before use.

Supporting documentation

Full technical specifications are available upon request.

Bespoke solutions

Should your market require more or fewer wipes, lightly scented alternatives or even biodegradable wipes, for example, let us know. We are more than happy to develop bespoke solutions.

Reynard Surface Disinfecting Wipes

One step for cleaning and disinfecting. Reynard Surface Disinfecting Wipes are fragrance free to avoid any risk of tainting. They contain a very low-foaming, biodegradable non-ionic surfactant, which exhibits good detergency for the emulsification of fatty/greasy soils. Hospital grade disinfection wipe, they are disposable, soap free and effective against 99.9% of common germs.
