Hand hygiene range

RHS hand hygiene range

Fast drying, gentle and effective, Reynard hand hygiene products protect and moisturise at the same time.

Reynard hand hygiene products are pleasant to use, effective and come in a variety of formats to suit most needs.

The fast-acting formula contains Ethyl alcohol and Chlorhexidine digluconate, in a combination proven to kill 99.9% of the most common germs*.

Aloe Vera and Vitamin E provide refreshing and moisturising care for hard-working hands.

The range comprises a variety of dispensing alternatives to offer the most practical infection control solution.

Also effective after washing hands to ensure additional hand hygiene, particularly in high-risk environments.

Product specifications and availability may vary according to country.

Always read the label and product information before use.

Supporting documentation

Full technical specifications are available upon request.

Bespoke solutions

Should your market require larger or smaller dispensers, for example, let us know. We are more than happy to develop bespoke solutions.

* Complies with EN12054 and EN1040
